## GREAT SOLUTION FOR YOUR ON DEMAND RIBBON INSERT NEEDS

### RM01 RIBBON INSERT

RM01 is a smart solution for every customer want to produce books with ribbon in a simple way and economically. Book is opened manually from the operator and put on the support that is variable under the width of the book size (01). One time the book is on position will be just necessary press the bottom and as first machine will be apply automatically glue on top (02), fix the head of the ribbon on book spine (03) and cut the ribbon on bottom at measure fix from customer (04). Everything is made automatically without operator assistance. When job is made, the operator will remove the book (05) from the support and will re insert again another book.
